Bifurcation Valencia Workshop

September 21st and 22nd 2023, Valencia, Spain

Terumo is pleased to invite you to participate in a Training Session that will cover the subject of Bifurcations from an eminently practical perspective.

The workshop will combine presentations and discussion on possible strategies with practical workshops and two live cases that will allow attendees to broaden their knowledge in the management of this type of lesion as well as in the available devices and possible techniques for the success of their procedures.
